

**LINDAB BUILDINGS SYSTEMS / ASTRON BUILDINGS**

is the European leader of commercial and industrial pre-engineered single and multi-storey steel buildings, employing some 1'000 people in Europe.

For our Multi Storey Building Department in our office based in Diekirch, Luxembourg we are currently recruiting technical people as per outlined qualifications and skills:

a Structural Engineer (f/m)**Profile:**

- Education: Engineer in construction
- Experience: Good technical background in the field of construction. 4 – 5 years of experience in steel design and building conception.
- Language: English and German or French language skills are mandatory, other languages are considered as an advantage
- Others: Sales and service minded; Team player; Willingness to travel

Objectives:

After a training period, and based on the qualification, the following tasks are foreseen for this type of position:

SAMPLE

- Structural calculations and design of all bearing members of our buildings.
 - Ongoing interaction with drafting and the respective manufacturing plant.
 - Contact with checking authorities to get official approvals.
 - Project clarification with customer and ongoing support until finalization of the project.
-

We offer the stability of a large international company, belonging to the LINDAB Group with more than 5'000 employees in 18 locations in Europe and in the US, related salaries and a job in a young enthusiast environment. If your competences correspond to the above profile, and if you are willing to join a dynamic permanently growing multi-national company, please send your detailed application and CV to:
