

## Swim in an attractive and safe environment

This building is located in Cologno al Serio in Italy. The public swimming pool that was erected by our Builder Partner was no easy task. The challenge was to protect the purlins and bearing structure against the humid atmosphere as well as fulfil strict norms that are applicable when planning public swimming pools. Everything had to be planned down to the last detail and then be carried out. At the same time, the functionality and design of the swimming pool had to be borne in mind.

The swimming pool successfully combines all the requirements and has been constructed in such a way that not only the customer is convinced by the new swimming pool, but also the Astron Jury, who selected the hall as Building of the Month.

The swimming pool stands out due to its design, functionality, cost effectiveness and short erection time.

Builder	Teorema Studio srl - Italy
Building Usage	Leisure / Swimming Pool
Surface	3,000 m <sup>2</sup>
Span	58 m
